I feel comfortable around most members of staff and especially Mrs Green.

Some teachers who spend most of their time in the infants think that some pupils are in foundation stage when they are not really. Also when my year visited Liverpool museum you were unable to say to yourself 'This floor is not very good. Let's move on to the next floor.'

I like all school trips and I extremely enjoy math and I. C. T. I fear I may not be as good as I could be in English. I try to have fun in playtimes but I get a bit lonely if all my friends are playing something else or not letting me play with them or even talk to them!

Some teachers don't really pay attention much.

Some teachers don't think we're capable of things we can do.

I have enjoyed all the sports activities and events that have happened in school and I like most of the people in school. This school is a comfortable environment and it is a good place for children that come from places all around the world.

I found the school trip to Barnstondale an exciting experience.

I don't like the way art is once every three weeks. I enjoyed going to Barnstondale. I am looking forward to the Y 6 residential.

I enjoyed barnstondale.

Some teachers think that we are infants because they spend to much time in foundation stage.

The times tables I think should be taught like  $1 \times 2 = 2 \times 2 =$  and so on. Other than that it is very good.
