

Sorting Sounds

Phase 2

Activities to try:

- Choose an object and say its name. Ask your child to listen carefully to the first sound in the word and match it to one of the letters on the plates.
- Play I spy with the different objects. When they have been guessed correctly ask your child to put them on the correct plate.
- Some children enjoy doing things against the clock so you could time your child to see how quickly they can match the objects to the plates
-

What is your child learning?

- Hearing the initial sound in words
- Linking sounds to letters
